

Specification of Maintenance for Bere Regis Cemetery

The cemetery is situated at Southbrook in Bere Regis near Egdon Close. It is approximately $2\frac{1}{2}$ acres in area of which $\frac{2}{3}$ is in use.

Grass The grass is to be cut to a maximum height of 3".
Trim the kerbs and headstones.
Trim the edges of the paths.

Paths The paths are gravel and require treating with a harmless weedkiller that is recommended will last for 12 months. The paths are to be scarified when the weeds are dead.

It is required that you provide an estimate of costs per cut of grass and one for treating the paths. There will be a minimum of 3 cuts per year in April, July and September although the times may have to be varied depending on the weather. There is to be one treatment of the paths.

There is a possibility that 1 more cut and treatment of the paths may be required.
